WOODS CREEK PROJECT IS SCHEDULED FOR AUGUST 25-26-27

The group will be packing in planks and supplies for completing 3 bridges, as well as the gear for the trail crew.

The 3 day event is setting up camp and preparing loads on Friday with the packing on Saturday and Sunday if needed, and the tear down.

Help is needed in all the following, not just packing:

- ⇒ Getting the tools and material to the site
- ⇒ Meals –planning– groceries and preparation at the camp.
- ⇒ Organizing and preparing loads for packing

As you can see this requires pre-planning and commitment from a lot of members. The August meeting will go over the details and make sure we have enough members to complete the project.
